but you'll only need the edge!

Gavin Hooper Bio

Professional Comedy Hypnotist & Motivational Speaker

Gavin Hooper started his career in hypnosis in 1990 earning the designation of "Master Hypnotist" and going into private practice. Helping people by offering smoking cessation treatment, removing fears and phobias, memory improvement and much more, he decided to expand his obvious talent into yet another direction.

So in 1995 Gavin took to the stage for the first time at a house party, entertaining some 35 guests. Three weeks later he was approached and asked if he would be willing to perform at a local night club with 200+ in attendance. As his exposure increased, many more offers came in, until with several very funny and successful shows under his belt he was ready for something different.

Clubs were a great way to gain early experience on stage, but Gavin knew it was time for a change when he was asked to perform "R" rated shows at many of the clubs. Gavin simply said that's not something he wanted to do, and moved on.

The Corporate world was new, exciting, and they wanted Gavin because his style of show proved a perfect fit for their needs. Each performance had a team building aspect, was suitable for all people to attend and was definitely motivating. Gavin had found his perfect niche.

To this day Gavin continues to motivate and excite people, creating wonderful memories with his fun, fast paced style of show. From Corporations (large or small), to Cruise Ships and Schools, a great time and positive messages are given to all.

Hooper is first and foremost a motivational entertainer speaker, who uses powerful and positive suggestions that allow people to feel better about themselves. Gavin has been helping and entertaining people for 29 years, and he truly is a "Master" in the art of hypnosis.

"Gavin is a real person caring and easy to work with, he makes everyone feel welcome and safe, wanting to join him on stage with his humor and honesty about hypnosis" it's Great Entertainment.
